Naturally Healing

The natural beauty of Lumicor products inspires a sense of comfort and well-being that is critical to a holistic healing environment.

From the life-like wood finishes of Kuvio dimensional wall tiles, to the array of Resin Panel décors in the Natural category, to Resin Panels featuring custom digital prints of stunning outdoor vistas, the healing power of nature can easily be integrated into the built environment.

Intrinsically Protective

Wall Protection combines the beauty of real botanical materials with the performance of durable resin, offering versatile, practical wall cladding without sacrificing design aesthetics.

The Wall Protection line features a curated selection of natural and neutral décors, a Class A fire rating, and an easy to clean, durable satin finish, making it ideal for healthcare environments.

Material Versatility

Kuvio Dimensional Wall Tile features crisp, geometric shapes in a stunning collection of natural finishes, including rich woodgrains, concrete, and stone.

The lightweight tiles arrive fully finished, making installation simple, quick, and economical.

Shapes can be arranged in a variety of patterns and each individual tile is ultra-lightweight, allowing for placement on walls, ceilings, partitions, and desk fronts.

Communal Spaces

Privacy doesn't have to mean isolation.

Resin privacy panels and partitions provide discrete separation while maintaining a soothing atmosphere within the healthcare environment.

Available in hundreds of décors, including organic elements from our Natural category, durable Resin Panels allow for the transmittal of natural light and offer superior cleanability and product longevity.

Seattle Children's Hospital
Application | Signage + Wall Features
Décor | Custom Digital Print

Endless Possibilities

Resin Panels offer the ideal combination of design flexibility, longevity, and ease of use.

We offer an extensive range of fully kitted products including partitions, lighting, ceiling features, and horizontal surfaces.

Resin Panels can also be customized to fit your unique application requirements with bespoke hardware solutions and custom digital print décors; our dedicated team of engineers, designers, and drafters are here to support each project, every step of the way.

Flexible Design

Resin Panels are durable, easy to care for, and can be used in many applications throughout healthcare environments.

Resin Panels can be used for headwalls, wall protection, dry erase marker boards, and cabinet inserts. Bring life to patient rooms with overhead lighting panels or create eye-catching signage, large or small.

To get started on your project, find your local sales representative at lumicor.com/find-a-rep.
