

## Resin Add-Ons

# LUMINOUS™

Luminous is a proprietary color film added to the back of any panel. Easily add a splash of color to any décor, specifying up to three layers per panel to create unique hues.

## COLOR MODIFICATIONS

Intensify your desired color by specifying up to three layers of a single Luminous add-on, or combine different colors together to create thousands of new hues that aren't standard options within the Luminous palette. Use this method to match Pantone, paint, and other material colors. Ask your local rep about our color matching services.

## EXTERIOR APPLICATIONS

Not all Luminous colors are suitable for exterior use. Colors marked with a ☀ above are approved for exterior applications, where they are encapsulated in the center of the panel to minimize fading.

## SPECIFICATIONS

### DÉCORS

Luminous may be combined with any Lumicor décor.

### SIZES

Luminous may be added to these sheet sizes:

- 48" x 96" (1219 x 2438 mm)
- 48" x 120" (1219 x 3048 mm)

### RESIN COMPATIBILITY

Luminous may be applied to any resin type.

### GAUGES

Luminous may be added to any gauge of Resin Panel and adds .010" (.25 mm) per layer to panel thickness.

### FINISHES & ADD-ONS

Luminous is available in any finish, with the exception of Frost on the film side of the panel.

### FABRICATION

Panels with Luminous may be cut, formed, and finished. All standard forms of fabrication may be used.

### OPACITY

Based on approximate amount of light showing through the panel.
