## IMPRESSIONS | MODERNA

Impressions Moderna by Lumicor engages the senses with a collection of embossed décors that add an artistic touch to any interior. This curated collection harnesses geometric patterns, playful colors, and bold light-play to charm modern sensibilities and ensure your next project leaves a lasting impression.

# OFF THE WALL

The Impressions Moderna campaign is a feel-good, repurposed story wrapped in modern art. As a way to upcycle our manufacturing materials and be better stewards to our community and environment, we commissioned local artists to give our industrial canvas a second life through the creation of a one-of-a-kind work of art. We believe, as manufacturers, that we have a greater responsibility to be green and strive to establish ongoing relationships with the artistic and educational communities to encourage creative reuse of our materials.

## A SPLASH OF COLOR

Easily combine Impressions' embossed textures with translucent luminous color. Be empowered, steer your project's palette from bright and bold to sophisticated and subtle through the use of Lumicor's Spectrum Add-Ons; choose from the standard color palette or layer colors for that perfect hue. The possibilities are nearly limitless.
